Free pattern: amigurumi candy cane

A quick one: one long, thin tube with 2-round stripes. A short piece of pipe cleaner inside lets you bend the top into a hook that stays put.

- **Size:** about 4.4 in / 11.3 cm straight, about 3.5 in / 9 cm tall once bent
- **Yarn:** DK cotton, white (A) about 5 yd / 4 m, red (B) about 4 yd / 4 m, a scrap of green (C)
- **Also:** 2.5 mm hook, one 11 cm / 4.3 in piece of pipe cleaner, a little fiberfill

Work in a spiral without joining. Change color on the last yarn-over of the last stitch of the round before, and carry the unused color inside the tube.

Finish: Bow in C: ch 20, tie a small bow around the cane under the hook.

Stripes every 2 rounds; the last round closes the end.

FAQ

Can I make the whole set in acrylic?

Yes. Use worsted acrylic with a 3.5 mm hook and every ornament comes out about 20% bigger. Keep the same yarn for the whole set so they match.

Which one should I start with?

The mini bauble or the candy cane. Both are a single piece with no sewing.

Are these safe for small children?

Treat them as tree decorations. Small pieces, safety eyes and the pipe cleaner in the candy cane are not meant for babies and toddlers.
